

The Starter plan allows you to enhance the user experience of your TVs by adding the Google Cast function via a compact dongle. Your customers will easily be able to stream their own content to your screens.

Technical specifications

Stand-alone TVs

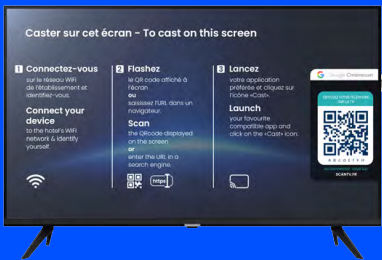

- Provides access only to DTT channels
- No Cast feature

With TVcast Starter

TV + Chromecast dongle

- **Chromecast dongle** : Small device to connect to the HDMI output and USB port of your TV
- **Compatibility** : Any TV with an HDMI port
- **Power supply** : TV's USB port

How it works

The standard operating of your TVs remains unchanged; the TV will continue to start on the tuner (TV channels).

► Access to Cast & contents streaming

The user simply needs to change the source via the remote control (switch to HDMI 1). The interface on the right will then appear.

To cast, the user needs to :

1. Connect to the establishment's WiFi network.
2. Scan the QR code on the screen.
3. Open the app on their device (smartphone, tablet, etc.) and click on the Cast icon.

Advantages of the Starter plan

▷ Customized user experience

The customer enjoys a simple and intuitive interface to Cast their own multimedia content (videos, music, etc.).

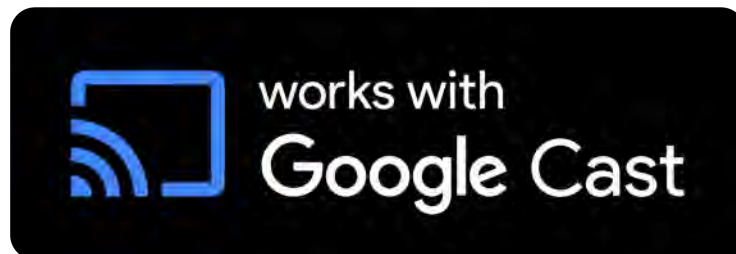

▷ Super simple setup

No changes to your TV parameters, just a new option accessible via the "Source" menu.

▷ Easy installation

A quick installation via HDMI and USB connection, without needing any additional equipment.

Adding the Chromecast Guest function to your TVs is a modern solution to enhance your customers' comfort while offering a personalized and connected experience.
